

MULTI-TENANT MANAGER FOR MSPs

AUTOMATE

STANDARDIZE

GOVERN

Managing M365 tenants is a resource-hogging task, with service providers spending several hours trying to juggle multiple admin portals to configure their customers. Configuring M365 tenants is a highly detailed and complex task, and simply knowing how to configure them isn't enough – service providers must also maintain tight security and keep risks at bay. Multiply all this across diverse tenant needs for different customers, and the problem very quickly grows into a mountain that can be overwhelming.

MANAGING MICROSOFT 365 TENANTS MADE AS EASY AS IT GETS

What is affected?

How does 365 Multi-Tenant Manager for MSPs help you?

What improves?

All Microsoft
365 tenants

compliance for all
M365 tenants.

365 MULTI-TENANT MANAGER FOR MSPS FEATURES

- ▶ **Automatic discovery of M365 tenants leveraging Microsoft Partner Center connection**, to facilitate the provisioning and streamlining of services. **Learning content and e-tutorials in multiple languages.**
- ▶ **Elimination of managing multiple Microsoft portals.** With 365 Multi-Tenant Manager for MSPs, **a tenant can be managed from one consolidated solution through a single pane of glass.**
- ▶ **Simplification and standardization** of otherwise complex workflows and inter-portal dependencies in Microsoft Azure/M365 administration.
- ▶ **User-friendly wizards** that guide service providers from tenant onboarding to tenant configuration, customization, and monitoring of automated tasks.
- ▶ **Out-of-the-box settings, policies and templates** that every organization can quickly adopt.
- ▶ **Built-in toolbox support** for creation of custom settings and policies, and importing of tenant policies, ensuring that MSPs can meet each customer's unique needs within their M365 tenant.
- ▶ **Automatic remediation and enforcement** when non-compliance is detected.
- ▶ **Extensive dashboards** for monitoring and reporting purposes.
- ▶ **Detailed dashboarding** functionality for **comprehensive analysis and call to action** for all managed tenants and their compliance states.
